

Project Demo Planning

Date	29 September 2026
Team ID	6ab2a427dbd693aadc5a7d4b
Project Name	Student Enrollment & Course Management System (SECMS)
Maximum Marks	1 Marks

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction & Problem Statement	Explain manual enrollment problems, long queues, overbooking issues. Present SECMS objective to digitize college admission process	2 mins	Member 1 - Team Lead
2	Architecture & Tech Stack Overview	Show solution architecture diagram - React frontend, Node.js backend, MySQL, Razorpay, S3. Explain microservices flow	2 mins	Member 2 - Technical Architect
3	Student Module Live Demo	Live demo: Student Registration with OTP, Login, View Course Catalog with real-time seats, Enroll with prerequisite check and seat locking	4 mins	Member 3 - Frontend Developer
4	Payment & Receipt Generation	Live demo: Razorpay secure fee payment, instant PDF receipt download,	2 mins	Member 3 - Frontend Developer

		confirmation email via SendGrid		
5	Admin Module Live Demo	Live demo: Admin login, verify student documents from S3, approve/reject enrollment, generate PDF/Excel reports of fees and students	3 mins	Member 4 - Backend Developer
6	Q&A and Conclusion	Answer faculty queries, explain future enhancements like AI course recommendation, close with implementation rate 100%	2 mins	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Start with manual process pain points - queues, double booking. Use 1 PPT slide with stats, Member 1 speaks
2	Solution Overview	Show SECMS architecture diagram and tech stack - React, Node, MySQL, AWS. Highlight seat locking logic to prevent overbooking
3	Live Feature Demonstration	Follow sequence: Student Register -> Login -> View Courses -> Enroll (seat locks) -> Pay via Razorpay -> Admin Approves -> Report Generate. Keep backup video ready if internet fails
4	Q&A Session	Prepare answers for: How to prevent double booking? How secure is payment? How scale for 10k students? Note down faculty feedback for future work
