

Code-Layout, Readability and Reusability

Date	30 September 2026
Team ID	6ab2a427dbd693aadc5a7d4b
Project Name	Student Enrollment and Course Management System(SECMS)
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

The code is well-structured and organized with proper layout, clear formatting, meaningful names, and proper indentation. It is easy to read, understand, maintain, and reuse. Reusable functions and components are used to reduce code duplication and improve the overall quality of the code.

Code Layout Checklist:

S.No	Code Quality Parameter	Description Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Names clearly describe their purpose
2	Proper File Structure	Files and folders are logically organized	Functions are named descriptively.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Comments explain important code sections.
4	Function / Method Names	Functions are descriptively named	Features are separated into modules.
5	Code Comments	Inline and block comments explain logic	Duplicate/unused code is avoided.
6	Modular Design	Code is split into reusable functions/modules	Basic validation and error handling used.

Reusable Components / Modules:

Component / Module Name	Language / Technology Reused	Where Reused	Reusability Level (High / Medium / Low)

1	Student registration form	HTML/CSS/JavaScript	Enrollment and student entry	High
---	---------------------------	---------------------	------------------------------	------

2	Course Selection Module	HTML/Javascript	Course selection	High
3	Form Validation	Javascript	Registration and enrollment forms	High
4	Common styling	CSS	All project pages	Medium
5	Navigation/UI components	HTML/CSS/JavaScript	All project sections	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	4	We organized structure with separate files/modules
Readability	4	Clear names and simple, readable code.
Reusability	4	Common functions and styles can be reused.
Documentation / Comments	4	Comments are included for important sections.
Overall Score	4/5	Good overall code quality with scope for further refinement.
