

Project Executable Files

Date	30 September 2026
Team ID	6ab2a427dbd693aadc5a7d4b
Project Name	Student Enrollment & Course Management System(SECMS)
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes

4	Database schema / seed files (if applicable)	Yes
5	Environment configuration file (.env.example or similar)	N/A
6	Deployed application URL (if hosted)	N/A
7	APK / Executable binary (if applicable for mobile/desktop apps)	N/A
8	Dockerfile/Containerization config (if applicable)	N/A
9	Test files and test results	Yes
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below: Student-

```
Management-System/
|
|   └─ src/
|   |   └─ app.py
|   |   └─ database.py
|   |   └─ routes.py
|   |   └─ templates/
|   |       └─ index.html
|   └─ add_student.html
|   └─ view_students.html
|
|   └─ static/
|   |   └─ css/
|   |       └─ style.css
|   |   └─ js/
|   |       └─ script.js
|   └─ database/
|   └─ student_database.db
|   └─ tests/
|   └─ test_student.py
|   └─ README.md
|   └─ requirements.txt
|   └─ .gitignore
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	N/A - Run locally
Login Credentials (Demo)	N/A - No login required
Platform / Hosting Provider	Localhost
Repository Link	gh repo clone pdharshu265-dev/Student-Enrollment-Salesforce-Project
Demo video Link	https://drive.google.com/file/d/1qAhAmp5QUOpQooPwYtHvH486TBdd8-Tb/view?usp=sharing

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Pre-requisites:

1. Windows / Linux / macOS system
2. Python 3.10 or above
3. Web browser such as Google Chrome
4. Internet connection for installing dependencies

Step 1 - Open project

Download or clone the Student Management System project and open the project folder in Visual Studio Code.

Step 2 - Create Virtual

Environment python -m

venv venv

Step 3- Activate Virtual

Environment

venv\Scripts\activate **Step 4-**

Install Dependencies pip

install -r requirements.txt

Step 5-Configure Database

Run the application. The SQLite database will be created/loaded

automatically. **Step 6-Start the Application** python src/[app.py](#)

Step 7- Open in Browser

Open Google Chrome and enter:

<http://127.0.0.1:5000>

Step 8- Use the Application

1. Open the Student Management System.
2. Enter the student details.
3. Click the Add/Create Student button.
4. The student record will be stored in the database.
5. Open the View Students page.
6. Verify the created student record.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Application runs only on the configured local environment.	Run the application using the provided setup instructions.
2	Internet is required only during dependency installation.	Install all required packages before running the application.
3	The system currently provides basic student record management features.	Additional features can be added in future versions.
