Project Name	Student Enrollment & Course Management System (SECMS)
Maximum Marks	2 Marks

Data Flow Diagram

The Data Flow Diagram (DFD) for Student Enrollment and Course Management System shows how data moves through the system between external entities, processes, and data stores. The system automates admission, course selection, payment and student management, ensuring transparency and real-time updates..

DFD Symbol Legend

Symbol	Name	Description	Example for SECMS
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data	Student, Admin, Faculty, Payment Gateway
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data	Validate Request, Manage Enrollment, Process Payment
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use	Student Database, Course Database, Payment Database
Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores	Enrollment Form, Admission Status, Course Confirmation

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
